Experience

Aptech-
Professional Graphic Design Skills

Proficient in Adobe Photoshop and Adobe Illustrator, I have honed my skills to a professional level, enabling me to produce high-quality graphic designs. I completed my training at Aptech in 2021, where I mastered these tools. My expertise, combined with my creative vision, allows me to deliver visually compelling and innovative design solutions, solidifying my reputation as a skilled graphic designer.

Aptech-
Front-End Web Developer

Completed a comprehensive web development program at Aptech, where I gained proficiency in front-end development technologies, including HTML, CSS, JavaScript, JSON, jQuery, Bootstrap, and TypeScript. I also developed a strong understanding of UI/UX principles, enabling me to create user-friendly and visually appealing web interfaces.

Aptech-
Office Automation

In addition to my graphic design and web development skills, I have completed an Office Automation course at Aptech. This training has provided me with advanced proficiency in Microsoft Word, PowerPoint, and Excel, enabling me to efficiently handle a variety of administrative and documentation tasks with a high degree of professionalism.

Certifications

- Graphic Design and Web Development Certificate, Aptech,
- Office Automation Certificate, Aptech
